

As a leader in the metals recycling industry, ABC Recycling is committed to environmental stewardship and protection. We exist to preserve the world's resources, building thriving communities by accelerating metal recycling.

ABC serves the direct needs of customers throughout western Canada and the Pacific North-Western United States, and in partnership with customers across the globe, ABC Recycling's environmental policy reflects our responsibility and commitment to preserving the world's limited resources.

We Commit To:

- Maintaining compliance with all applicable environmental laws, regulations, and standards
- Developing and supporting environmental protection programs with objectives and targets to minimize adverse environmental impacts
- Implementing new industry-leading control processes and technologies to demonstrate our ongoing commitment to environmental protection
- Communicating that environmental protection is a responsibility of all management, supervision, and workers
- Equipping staff with the knowledge and tools to meet the goals of this policy

We Will:

- Hold all levels of the organization accountable for environmental protection and compliance
- Implement effective pollution prevention and waste minimization programs
- Strive to lead the industry in protecting the environments and communities where we operate, as responsible corporate citizens.
- Measure progress towards reaching our environmental goals through auditing to drive continual improvement

I trust that all employees will join me in a personal commitment to make environmental stewardship a way of life. Together we will continue to make ABC Recycling an industry leader in environmental protection.

David Yochlowitz
